PLUG-IN CONNECTOR IDENTIFICATION

There is often confusion as to the identification of plug-in-connectors and housings. The table and diagrams below should give some help.

Similar to diag. no.	Body dia mm	Part no. for Warsop Pokers	Part no. for Metrix pokers	Drive unit	Comments
1	65	60748		Warsop	Plain end, no thread. Superseded by 60803
2	60	60439		Errut	Plain end, no thread. 2 grooves. Superseded by 60802.
3	60	60802		Errut	2 grooves.
4	65	60803		Warsop	
5	60	60801		Dynapac*	Dist from edge of groove to end of claw 38, width of groove 10.
5	60	60813		Wacker*	Dist from edge of groove to end of claw 38, width of groove 11.
5	60	93036		CEL*	Dist from edge of groove to end of claw 40, width of groove 10.
6	47.5	92961		Fyne	
7	48.5	92844		Metrix	
4	65		92283	Warsop	
6	47.5		92054	Fyne	
7	48.5		92050	Metrix	
8	60		92051	Dynapac	2 grooves. Also fits CEL, Errut and Wacker drive units.
9	57		92053	Johnson	

* If in doubt supply Dynapac for customer to check fit, as this is the most widely used.
